

Trapeze Fastener System

Purpose made one-way Gripple for quick and easy suspension of pre-fabricated units in a single or multi-tiered configuration.

ADVANTAGES

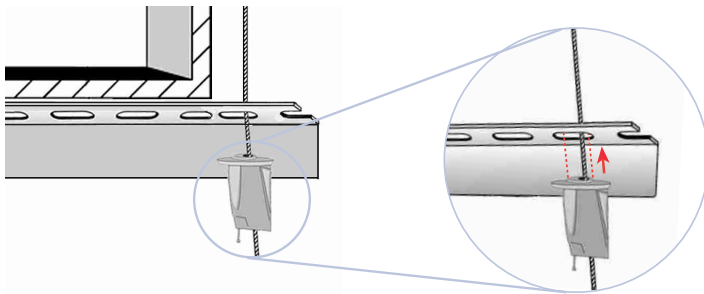

- Quick and effective suspension solution for pre-fabricated units.
- Can be used with standard Gripple hangers for multi-tiered installations.
- Available in a kit with choice of 10 end fixings (see below).
- Releasable pin for easy adjustment.

PRODUCT INFORMATION

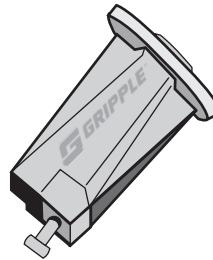

- Suitable for low-void ceilings, allowing adjustment up to the ceiling.
- Purpose made one-way Gripple for use on Gripple Hanger size No.3.
- Load rated at 90kg SWL based on a 4:1 instant load.

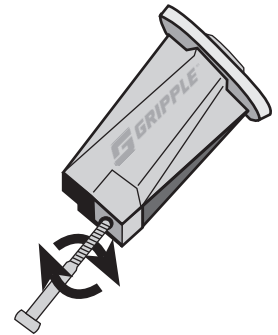

INSTALLATION

Gripple Trapeze slots into the configuration of the channel.

Releasable pin makes adjustment easy.

Unscrew pin and remove to complete the installation.
